

**APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER
OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE
STATE OF NEVADA HERETOFORE APPROPRIATED**

Date of filing in State Engineer's Office APR 13 1995Returned to applicant for correction MAY 22 1995Corrected application filed JUL 17 1995 Map filed JUL 17 1995The applicant Santa Fe Pacific Gold CorporationP.O. Box 69

Street and No. or P.O. Box No.

of

Golconda

City or Town

Nevada 89414

State and Zip Code No.

hereby make application for permission to change the

Point of Diversion, Place of Use and Manner of Use of a Portion

Point of diversion, manner of use, and/or place of use

of water heretofore appropriated under #52051 for DW-5

Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and

Identify right in Decree.

1. The source of water is underground

Name of stream, lake, underground spring or other source.

2. The amount of water to be changed 0.75 cfs

Second feet, acre feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for mining, milling and domestic purposes.

Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.

4. The water heretofore permitted for mining, milling and domestic purposes.

Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.

5. The water is to be diverted at the following point SE 1/4 NW 1/4 Section 19, T.39N., R.43E., M.D.B.&M.,

Describe as being within a 40-acre subdivision of public survey and by course and

or at a point from which the N.E. corner of said Section 19, T.39N., R.43E.,

distance to a section corner. If on unsurveyed land, it should be stated.

M.D.B.&M., bears N. 57° 21' 06" E. a distance of 3,325.42 feet.6. The existing permitted point of diversion is located within SW 1/4 NE 1/4 Section 19, T.39N., R.43E.,

If point of diversion is not changed, do not answer.

M.D.B.&M., and from which the North 1/2 corner of Section 19, T.39N., R.43E.,M.D.B.&M., bears N. 24° 02' W., 2,602.4 feet.7. Proposed place of use See Attachment "A" and Place of Use Map

Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.

8. Existing place of use is in Sections 19, 20, 21, 28, 29, 30, 32, 33, all in T.39N.,

Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/or

R.43E., M.D.B.&M.,

manner of use of irrigation permit, describe acreage to be removed from irrigation.

9. Use will be from January 1 to December 31 of each year.

Month and Day

Month and Day

10. Use was permitted from January 1 to December 31 of each year.

Month and Day

Month and Day

11. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Well, pump, motor distribution system.

State manner in which water is to be diverted, i.e. diversion structure,

ditches, pipes and flumes, or drilled well, etc.

12. Estimated cost of works \$139,500.00Well completed with 10-inch diameter casing to a13. Estimated time required to construct works depth of 626 feet. Pumping hardware installed,
along with a continuous reading flow meter.

14. Estimated time required to complete the application of water to beneficial use 3 years

15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:

APPROVAL
OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 52051 is issued subject to the terms and conditions imposed in said Permit 52051 and with the understanding that no other rights on the source will be affected by the change proposed herein. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

This permit will allow the permittee to dewater the pit area. It is understood that any water pumped as a result of the production and dewatering operation shall be used first by the permittee for mining, milling, heap leaching, drilling, road watering and other related mining uses hereinafter referred to as mining and milling uses within the described place of use on this permit.

(CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.75 cubic feet per second

Work must be prosecuted with reasonable diligence and be completed on or before May 26, 1997

Proof of completion of work shall be filed before June 26, 1997

Application of water to beneficial use shall be made on or before May 26, 1998

Proof of the application of water to beneficial use shall be filed on or before June 26, 1998

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed JUN 19 1996
Proof of beneficial use filed _____

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.
State Engineer of Nevada, have hereunto set my hand and the seal of my
office, this 12th day of June
A.D. 19 96
Michael Turnipseed P.E.
State Engineer

(PERMIT TERMS CONTINUED)

The State Engineer retains the right to regulate pumping from the dewatering project and/or any other groundwater withdrawals herein authorized to protect the public interest and existing rights. Any water pumped and not used for mining and milling purposes shall be injected back to the Kelley Creek Groundwater Basin.

The design of the infiltration system or other disposal method and the delivery system to the site shall be submitted to the State Engineer for approval prior to any diversion of water. The permittee shall discharge water in a manner to achieve maximum conservation of the water resource. It is understood that this right must allow for a reasonable lowering of the static water level.

The State Engineer will retain the right to require additional monitoring including; water levels in observation and monitor wells and of the flow rates of surface sources. The permittee, on a schedule acceptable to the State Engineer, shall prepare and present an update on the activities of the mine and the monitoring on a periodic basis, but not less than two times per year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies and is specifically issued contingent upon approval by the Nevada Division of Environmental Protection of the dewatering project.

The total combined duty of water for consumptive purposes under Permits 49633, 49634, 50853, 50854, 52046, 52048, 52049, 52050, 52051, 58042, 58043, 58044, 58045, 60048, 60049, 60050, 60051, 60052, 60053, 60054, 60055, 60056, 60057, 61132, 61133, 61134, 61135, 61136, 61137, 61138, 61140, 61141, 61142, 61143, 61144, 61798, 61799, 61800, 61801, 61802, 61803 and 61804 shall not exceed 6,121.0 acre-feet annually. The total combined diversion rate of the above referenced permits shall not exceed 30.75 cubic feet per second on an instantaneous basis.

This permit is issued subject to and also incorporates the terms and conditions set forth in the State Engineer's Ruling No. 3606, dated May 19, 1989.

Monthly records will be kept of the following: The volume of water pumped from each well, the measurement of pumping water level (drawdown) from each production well and each monitoring well, the volume of water consumptively used for mining and milling uses projectwide, and the amount of water discharged for infiltration. These records will be submitted within 15 days after the end of each calendar quarter. A method that estimates the amount of evaporative losses from the discharge system shall be submitted with the monthly report. The evaporative losses will be considered as part of the combined duty for consumptive purposes.

All of the above stated conditions are issued subject to having no adverse impacts on existing rights.

**Attachment to Application to Change Point of Diversion,
Manner of Use and Place of Use of the Public Waters
of the State of Nevada Heretofore Appropriated**

15. Remarks: [continued from application] Pumping pursuant to the portion of the base water right described in this application (#52051) is presently occurring at the point of diversion described in this application pursuant to temporary permit no. 61028T. The purpose of this application is to eliminate the need for filing temporary applications on an annual basis by permanently moving the referenced portion of the base water right to the existing effective point of diversion. In the event this application is approved, temporary permit no. 61028T will expire and be instantaneously replaced by this approved permit.
